Solar System Maintenance & Repairs

Ensuring long-term efficiency and reliability

Why Choose Us

Leading provider of solar energy solutions in Kenya

High-quality solar products

Reliable after-sales support

Expert installation team

Affordable packages

Notable Clients and Projects We Serve

Client Nationwide

We have done various projects
Across Kenya

- St Francis wiga girls solar installation
- 300-liter pressurized solar water heater
- 3kVA solar power system installed in siaya
- Commercial solar grid tied system

01 Residential Solar System – Kilifi

We installed a **5kW grid-tied solar system** for a modern family home in Nairobi

02 Commercial Solar Installation – Kisumu

For a mid-sized manufacturing company in Kisumu, we implemented a **500 kW commercial solar system**.

Our Role in Community and Local business ecosystems

Empowering Local Businesses

We partner with local suppliers and contractors to stimulate economic development and ensure every project benefits the local economy

Sustainable Community Growth

Our solar solutions reduce energy costs, increase energy independence, and contribute to a cleaner environment for future generation

At **Richfield Solar Solutions**, we believe in more than just delivering energy—we create opportunities for growth within our communities

Our Success in facing industry challenges

At **Richfield Solar Solutions**, we have turned challenges into opportunities for growth and innovation

Navigating Market Dynamics

We adapt to fluctuating energy costs, changing government policies, and evolving technology to deliver consistent value

Success

Overcoming Infrastructure Barriers

By leveraging advanced solar technology and expert teams, we ensure seamless installations in diverse environments

Success

Ensuring Affordability

Through strategic partnerships and financing solutions, we make solar energy accessible to businesses and household

Partnership

Our best team

We have highly Skilled & Certified Staff delivering world-class solar solutions

Installation **Process**

Our Various Packages

We offer affordable packages to our clients

BASIC

Basic Package – Ideal for Homes

- Capacity:** 3kW – 5kW
- Includes:** Solar panels, inverter, mounting kit, wiring, and installation.
- Benefits:**
 - ✓ Lower electricity bills
 - ✓ Reliable backup during outages
 - ✓ Environmentally friendly

Standard

Capacity: 10kW Includes: High-efficiency solar panels, smart inverter, batteries (optional), and installation. Benefits:

- ✓ Reduce operational costs
- ✓ Supports small machinery and office equipment
- ✓ Improves energy independence

Best For: Shops, offices, schools, and small enterprises.

Premium

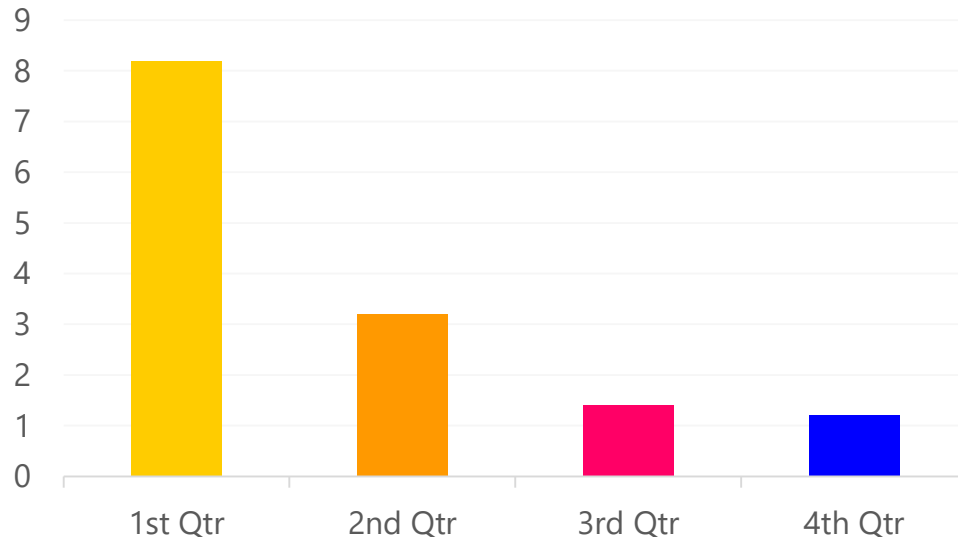

Capacity: 50kW and above Includes: Commercial-grade solar panels, advanced inverter system, storage options, and full monitoring solutions. Benefits:

- ✓ Power for heavy-duty equipment
- ✓ Reduce carbon footprint at scale
- ✓ Long-term savings with quick ROI

Best For: Factories, farms, malls, and large commercial buildings.

recognition
Honesty in every project we undertake

Our Testimonial client

// We run a resort in Diani and were tired of frequent power cuts. Richfield designed a hybrid solar system with lithium batteries and the results have been incredible—no more generator costs!

Client
Jecinta, Manager

// Richfield Solar installed a 300L solar water heater at my home in Kitale. The team arrived on time, worked efficiently, and left everything neat and functional. We haven't needed electricity for hot water since!

Alexander G.
Client

// I wasn't sure solar would be worth the investment, but Richfield gave me a clear proposal and helped with financing. My energy bills are down over 60%

Bella Rose
Client
